

LIGHT & FILM MUSIC

Light & film music is ideal & tailor-made for those who are passionate about singing and want to explore beyond classical music. The course content will comprise voice culture, modulation & voice exercises.

You will be trained in group singing, solo singing, singing in different styles, and harmony singing.

During the course, you will learn retro film songs (Hindi & Kannada), devotional songs, and light music.

This course will give you exposure to singing in the recording studio and microphone techniques. We will also guide you in how to present yourself on stage with coaching in basic anchoring.

At the end of the course, you will get to put up a stage performance in the presence of an audience with a complete Live orchestra after intensive training in singing with the musicians.

You will also stand a chance of being recognized by eminent professionals from the music industry during the course.
